

# **BUILD A 3D PUMPKIN**

## *Supplies:*

- Scissors
- Glue
- Printable 3D Pumpkin Template

- Choose black and white or color pumpkins. Color the pieces if you choose black and white. Cut out all pieces
- Fold each of the 12 pumpkin shapes in half (white side facing out) Separate 6 pumpkin pieces from the other 6 pumpkin pieces.
- Glue the backs (white side) of 6 pumpkin pieces together
- Glue the front and back of the brown stalk together
- Glue half of the stalk to your first 6 pumpkin pieces and wrap the other half of the stalk around the back of your first 6 pumpkin pieces
- Next glue the remaining 6 pumpkin pieces to finish the pumpkin
- You can make it easier by only gluing 6 pieces instead of 12
